GREETINGS

Dear friends,

Ensuring gender equality, eliminating discrimination and bringing positive changes in women's lives were at the heart of our operation in the past year. This report highlights the work of our grantees that restlessly worked on reforming legal environment for improving state efforts in prevention and protection of girls and women from domestic violence, discrimination and sexual harassment on workplace.

One other issue that has been at the centre of attention of the world's civil society is COP21 or high level meeting on adoption of Sustainable Development Goals 2016-2030. These 17 goals should be the main agenda for

development of the world and Mongolia as well. Therefore, MONES has joined Action 2015 - a global movement of civil societies from 135 countries for adoption and implementation of SDGs - and delivered petition to the President of Mongolia demanding immediate and real action in implementation of SDGs, government commitment in eradicating poverty, promoting equality, safe and secure future for all.

After reviewing our past work MONES team and Board members have revised grant-making programme and developed new Grantmaking Strategy for 2016-2020. This strategy addresses promotion of gender equality and elimination of discrimination; strengthening women's movement and increasing women's participation in decision-making levels to contribute to good governance, government responsibility and accountability; as well as young women and girls' empowerment. Nevertheless, a novel programme for MONES is empowerment of communities to tackle environment degradation to protect women's rights.

As for MONES' history this year marked our 15 years' anniversary of promoting philanthropy culture in Mongolia. Thus, the celebrations of the annual Philanthropy Day were therefore memorable for us, our grantees, partners, donors and supporters. We also enriched our Board with outstanding women from different sectors and expanded our volunteer ranks.

We wish to extend our sincere gratitude to our new and old donors, supporters, partners and grantees that never stop working for social justice and positive change!

Sincerely,

A handwritten signature in black ink, appearing to read 'Sh. Tsevelmaa'.

HIGHLIGHTS OF LOCAL FUNDRAISING

VIP EVENT:

For the past 3 years MONES has been organising VIP event together with Women’s Parliamentary Caucus of National Parliament in the name of the Former First Lady of Mongolia Sh.Tselvelmaa. The purpose of the event, besides raising funds, is to raise awareness of women in decision-making levels of issues mothers of children with disabilities face. 57 individual donors raised 2,265USD to support 10 women with disabilities and mothers in starting their own small businesses.

“100 LEADERS’ RELAY” is another fundraising campaign that runs throughout November, starting with the National Giving Day (1st Nov) and runs until the end or International Philanthropy Day. 79 people took participation and raised 2,719USD collectively.

RESULTS AND ACHIEVEMENTS

Out of **23** grants that were awarded went to projects

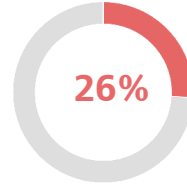

fighting gender based violence and discrimination

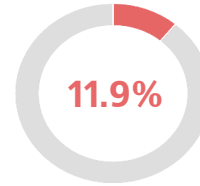

increasing women's political participation

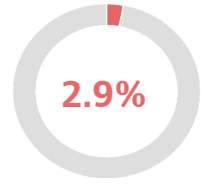

fostering women's movement

supporting women's economic empowerment

fighting climate change and its consequences

Most of the grants were directed to promotion of gender equality, in the scope of which, project activities included advocacy and awareness raising on revised Law against Domestic Violence, Labour Law and Criminal Code.

DISCUSSION MEETING ON REVISED LAW AGAINST DOMESTIC VIOLENCE:

Nationwide discussion of the revised Law took place at the Parliament House involving civil society and members from Civil Council from 21 provinces and 9 districts of Ulaanbaatar city. MONES together with Women's Parliamentary Caucus worked together to organise such an important event, where valuable contributions were developed and proposed, most notably developing prevention of violence and protection mechanisms for women and children.

INCREASING PUBLIC AWARENESS ON SEXUAL HARASSMENT ON WORKPLACE:

Coalition against Sexual Harassment on Workplace have increased awareness of 17 lawyers from Unions of Educators, Healthcare practitioners, Miners and Transportation; also of 20 employees of Mongolian Women's Union. The Coalition also developed a clause in the Law requiring organisations incorporate statues and develop policies prohibiting sexual harassment on workplace.

EDUCATING HIGH SCHOOL GIRLS ABOUT GENDER BASED VIOLENCE AND PREVENTION OF IT:

20 educators from Dornod province's and Baganuur district's schools were trained in GBV and prevention. As a result, 768 students currently received pilot training on prevention of GBV.

STRENGTHENING WOMEN'S COLLABORATION AND INFLUENCING LOCAL POLICIES:

- Bulgan province women have come together in lobby groups to resolve issues local women face as a result of 10 representatives from province's civil society, administration, as well as Civil Council have acquainted themselves with the work of human rights NGOs in Ulaanbaatar city
- Network of WNGOs from Arkhangai province conducted a situational social study, where the domestic violence was recognised as the most pressing social issue. In order to raise awareness of public on the issue they have written a theatrical play and received first prize in "Theatre for Human Rights" competition. Received award was used to screen the play for 1500 citizens from 5 soums.
- WNGOs Networks of Dornod province and Baganuur district also work on stopping GBV in their localities, especially local high schools. They have influenced representatives from Crime Prevention Council and Civil Council to fund GBV prevention classes to high school students. Together they have developed Child Protection Policy to be followed by local schools.

L. Uranchimeg Coordinator of Arkhangai WNGOs Network:

Network members and local Civil Council members working together despite political party affiliations has created correct and positive impression among local public and has helped to pave the way for women into decision-making levels. Local collaborations really do work.

EMPOWERING WOMEN WITH MULTIPLE DISADVANTAGES:

Improved livelihoods of 28 mothers of children with disabilities from Chingeltei district through involving them in various trainings on handcrafts, as well as child special care and health. These mothers organised themselves and with little help established their own NGO to further empower and help women in similar situations.

Yo.Odgerel:

Before I felt alone, and was alone. I was away from information, and didn't know much about communicating to, providing healthcare and serving the needs of my child. After joining the project I met many mothers in similar situation. We learn together, share information. We are able to express ourselves and are full of enthusiasm to develop further together with our children.
